Wariddon Rattanamalee

Software Engineer

Backend, full-stack and AI-assisted development

099-323-2150 wrd8856@hotmail.com

Professional experience

Period	Company	Role
May 2024 - Present	Siam Commercial Bank (SCB)	Backend Developer
Jun 2026 - Present	InblackM	Senior Tech Development Consultant, part-time
2023 - 2024	TISCO Financial Group	Backend Developer
2022	CAT Telecom	Java Developer
2018 - 2022	Thai Insurance	Programmer

SCB is my primary role. InblackM is a concurrent part-time role.

SCB banking services

Siam Commercial Bank (SCB)
Backend Developer, May 2024 to present

Service development

Lending, AML reporting and customer data APIs
Java/Spring Boot and external API integration

Modernization and support

Spring Boot and gateway upgrades, Azure Managed Redis
SCB Connect migration, runtime investigation and UAT

Azure Managed Redis modernization

Challenge

Identity tokens expire while services keep running.
A reconnect must obtain a current credential.

My contribution

Implemented token renewal and connection pool rollover.
Adapted reactive gateway authentication on reconnect.

Java, Spring Boot, Lettuce, Azure Entra Managed Identity

InblackM platforms and automation

Senior Tech Development Consultant
Part-time, June 2026 to present

Customer and staff applications

Order review, package pricing and operations dashboards
React/Next.js screens with Node.js backend APIs

Services and integrations

Order workers, staff SSO and provider investigation
Go ERP work on tenants, secrets and attendance geofencing

AI-assisted engineering in both roles

Claude and OpenAI Codex

At SCB

Trace related services, compare migration patterns,
draft fixes and regression cases for banking APIs and Redis.

At InblackM

Investigate orders across repositories, refine interfaces,
review integrations and draft tests and technical handoffs.

I review changes and validate behavior against requirements.

Let us discuss your engineering needs
